

# 2<sup>nd</sup> Annual Life Science Innovation Day

With Keynote Speaker Mikael Dolsten, Chief Scientific Officer, Pfizer

The healthcare industry offers many characteristics we like, including tailwinds from demographics, the ability to disrupt through innovative solutions and, often, fragmented market positions, ripe for consolidation. Innovation is one of its core attributes.

Take part in fireside chats with some of the Nordics' most innovative life science companies: AddLife, Arjo, Biotage, Camurus, ChemoMetec, Getinge, Hansa Biopharma, Medicover, Sobi, Surgical Science, Vitrolife and Xvivo.

We're honored to host **Mikael Dolsten, Chief Scientific Officer, Pfizer** as our Keynote Speaker to discuss innovation and Pfizer's recent accomplishments. There will also be a **panel debate with venture capital members** to discuss emerging technologies.

**Date:** Wednesday, 24 August, 2022

**Time:** 08:45 - 16:25 CET

**Place:** Virtual, link to be provided

**Registration:** [invitations@handelsbanken.se](mailto:invitations@handelsbanken.se) or your local sales contact

---

**Warmly Welcome!**

Mattias Häggblom, Rickard Anderkrans, Suzanna Queckbörner
